This month, we highlight a member dedicated to carrying on the spirit and legacy of a fellow member and community activist that passed away too soon. Britney Harris of Warren County has worked tirelessly over the last several months to grow the vision of Megan's Mobile Grocery, one of the many passions of the late Megan Davidson.

In 2019, Megan oversaw the creation of the Mobile Grocery project in Warren County. The Mobile Grocery, a refurbished bus that provides healthy and affordable food directly to neighborhoods classified as "food deserts" by the USDA, began in February 2019. The project was an immediate success. On July 27, 2019, Megan Davidson tragically passed away at age 34, leaving behind not only a loving family but the community she loved.

Davidson's close friend and running partner, Britney Harris, dedicated herself to ensuring the Mobile Grocery project continues to grow and thrive. In just a few short weeks, Britney organized the Miles for Megan 5K run which took place on November 16, 2019. The event raised over \$20,000 for the Mobile Grocery. Thanks to Harris' passion and the help of a few dedicated friends, the Mobile Grocery has expanded and now serves over 750 families per week. Now operated under the umbrella of the Housing Authority of Bowling Green, the program is thriving.

If you know a member who exemplifies the cooperative spirit in your community, visit us at <http://www.wrecc.com/member-spotlight/> to nominate them for a future spotlight.
