WARREN RECC OUTAGE UPDATE

March 10, 2023 (Bowling Green, KY) **9:30 a.m.** Warren RECC staff and crews continue to work alongside visiting crews to fully restore power to our members. As of 9:30 a.m., we have approximately 100 members still without power. We expect all members that can be restored to have power today.

At the height of the storm, 45,000 Warren RECC members were without power. We have made great progress since the storm began, restoring more than 99% of our members and replacing 95% of the 433 broken poles across our service territory in just under a week.

We would like to remind all our members that spring is right-of-way clearing time. As we have just seen, trees and power lines are not a good mix. Please be patient in the coming months as right of way crews work in your area.
