

Outdoor Lighting Service

Warren RECC offers a variety of outdoor Light Emitting Diode (LED) lighting options for residential, business, and industrial members.

Compared to conventional lighting, LEDs offer the following benefits:

- More energy efficient by using 40-80% less energy.
- Lifespan is 4 times longer.
- More environmentally friendly.
- Improved visibility by offering better field depth and peripheral vision.

Members who sign up for outdoor lighting service pay a monthly fee per installed lighting fixture. The monthly fee covers the cost of operation and maintenance, and electricity used. If your lighting fixture goes out or requires maintenance, simply let us know and we will make the necessary repairs at no additional cost.

Installation costs are as follows:

- Connect existing/install new: \$35 per lighting fixture on an existing cooperative pole.
- If an additional pole is required: \$300 non-refundable charge, plus \$2.50 per month.
- If a new transformer is required: \$300 non-refundable charge, plus \$2.50 per month.

Lights Available

Type	Brightness	Direction	Monthly Fee
Yard Light: 50-Watt LED	6,494 lumens	Lights up around the pole	\$7.00 per month
Flood Light: 49-Watt LED	6,274 lumens	Directional Light	\$11.53 per month
Flood Light: 119-Watt LED	14,579 lumens	Directional Light	\$13.07 per month
Flood Light: 199-Watt LED	23,067 lumens	Directional Light	\$15.41 per month

Lumens measure how much light you are getting from a bulb. Higher lumens means it's a brighter light; fewer lumens means it's a dimmer light.

Prices are subject to change as the cost of equipment and energy changes.
