Capital

All other amounts received by the Cooperative from its operations in excess of costs and expenses shall, insofar as permitted by law, be (1) used to offset any losses incurred during the current or any prior fiscal year and (b) to the extent not needed for that purpose, allocated to its Members on a patronage basis and any amount so allocated shall be included as part of the capital assigned to the accounts of Members, as herein provided. Any such retirements of capital shall be made in order of priority according to the period in which the capital was furnished and credited, the capital first received by the Cooperative being first retired. In no event, however, may any such capital be retired unless after the proposed retirement, the capital of the Cooperative shall equal between 32 and 37 percent of the total assets of the Cooperative.

Capital credited, if any, to the account of each Member shall be assignable only on the books of the Cooperative pursuant to written instruction from the assignor and only to successors in interest or successors in occupancy in all or a part of such member's premises served by the Cooperative unless the Board, acting under policies of general application, shall determine otherwise.
