

## Spark the Christmas Spirit

The Morgantown Mission - Butler Co Backpack Program

Butler County Backpack Program to support the beloved children of BC. Hunger doesn't take weekends off, and neither do we. This incredible program provides bags of food to children in need, ensuring they have enough to eat over the weekend when school meals aren't available. Every dollar raised helps fill a backpack with nourishment, hope, and care. Together, we can make a difference.

Sadly, many children in our school system are going an entire weekend with little to no food. This lack of food security can cause children to not perform well academically, display unacceptable behaviors, and have poor attendance due to illness or unexcused absence. Help support a child for the weekend. Our Backpack Program provides food for each school age child (Head Start through high school) in the home every Friday each week during the school year. Every donation helps.
